✦ MEGÈVE ✦

A modern cocoon in the heart of the Alps

Nestled in the heart of the village's picturesque streets, the Coeur de Megève is an emblematic boutique hotel in an exceptional location. With a focus on the art of living, it features 39 warm, contemporary rooms and suites. Several chic and cosy dining areas, as well as a Tata Harper Spa offering organic treatments, complete this cosy nest.

After a complete renovation directed by the interior designer Sybille de Margerie, the Coeur reopened its doors in 2018 and revisits the Alpine spirit with finesse and modernity. Inside, large, bright living spaces invite guests to relax and unwind, comfortably lulled by the crackling fire. From the bedrooms to the common areas, wood is omnipresent and confers a cosy and timeless atmosphere. Brushed walnut is combined with warm fabrics and bright colours to create an authentic chalet feel with a contemporary feel. Introducing travellers to simple and refined luxury, the rooms and suites are furnished with care and attention to detail. Whether they are attic rooms or rooms opening onto sunny terraces, all have a special charm and elegance, with the warm touch that makes you feel at home.

LE CŒUR

An alpine and friendly table

A popular address for locals and travellers alike, Le Cœur immerses its guests in a chic and authentic setting. The restaurant's menu is created according to the seasons and carefully uses local products from local markets. The vegetables for example, which are pampered and harvested by hand every morning, come from the Ferme du Renard, a few miles from the hotel. The organic and artisanal beers are brewed between Annecy and Sallanches. Le Cœur offers simple, comforting and generous cuisine. On the menu, the signature Abondance Cheeseburger, the unmissable Berthoud, beautiful pieces of meat and fresh fish... Not to mention the Savoyard classics to face the cold during winter.

To meet for a drink after a great day of skiing or hiking, the terrace, a cosy heated nest, turns into a brightly coloured outdoor lounge in the summer. Designed as a real outdoor lounge in winter, it is a warm spot to meet on large sofas dressed in furs. On sunny days, this meeting place keeps its friendliness and becomes the ideal place to enjoy a moment in the sun.
